CHANGING COLOURS FOR YOUR SWIMMING POOL

The right atmosphere for any occasion

Spectravision MOONLIGHT lamps contain LEDs that come in three colours: red, green and blue. They allow you to create **numerous colour combinations** and **unique atmospheres** in your swimming pool. You can choose from an impressive total of 16 colour modes! Because a birthday party for the kids requires another atmosphere than a romantic evening tête-à-tête.

STYLISH COLOURS

Do you want to keep it simple ?

In that case, light up your pool with only one colour: white, green, blue or red or go for a warm mixed colour: light blue, yellow or purple.

PLEASANT ANIMATIONS

Would you rather go for something more atmospheric ?

Let you gently drift away on the water, while enjoying fascinating plays of light and colour. You can choose between:

- the red/blue evening light of **Evening sea**
- the mysterious, red/green shine of **Evening River**
- the irresistible green/blue tints of **Riviera**
- the astounding blue/red/green play of light of **Rainbow**
- the red/blue/green/purple wealth of colours of **Four Seasons**
- the comprehensive riot of colours of **River of colours**.

PLAYFUL, RHYTHMIC PLAY OF LIGHTS

And since we all love to get a little wild from time to time :

- explosive water fun guaranteed with the rhythmic and swirling colours of **Disco**.
- go wild in the "swinging swimming pool", thanks to **Party!**
